F-LECCS
FUKUI LEARNING COMMUNITY CONSORTIUM

Open Knowledge Framework
for the Learning Space

SNS

SNS is used for daily communications over each college. More than 300 communities are open and almost 200 articles are posted a day. SNS is the center system of communication in F-LECCS.

ML

ML is built for the Mahara user community in which Mahara users in JAPAN are organized.

Wiki

Wiki is intend to use for an accumulation and a share of explicit knowledge. In the communities, tacit knowledge is stored. Wiki is a tool to convert from tacit knowledge to explicit knowledge.

Papers

Paper is the best example of explicit knowledge. Some members in F-LECCS published 12 papers in domestic conferences and 4 papers in international conferences.

Monthly Seminars

Intercollegiate seminars are organized every month, and advanced topics regarding education, technology and other professional fields are discussed actively.

Semianual Symposiums

Symposiums are held twice a year, and experts on a topic in JAPAN are gathered and discussed actively.

Camp for discussion

A two-days Camp is held a year to discuss a special theme intensively.

LMS as the entrance of VODs and Slides

The courses on LMS are used for the entrance to access VODs and slides of the seminars and the symposiums.

VOD Server

Mediasite recorder and server are used for live streaming and VODs of the seminars and the symposiums.
